

r18.0.5 Changelog

+-----+
| r18.0.5 Release - 78770 |
+-----+

Release day - 19th May

Bug

- DSOF-17126 - OmniCal: fix for calibration error in results is 0 if projector failed (should be -1)
- DSOF-17110 - OmniCal: fix for potential access violation on shutdown prevents saving Alignment data
- DSOF-17056 - Add stack trace to texture allocation errors
- DSOF-17046 - Unbounded memory growth in actor monitoring manager
- DSOF-16626 - Plugins cannot save schema without a license

Improvements

- DSOF-17116 - OmniCal: report now prints total sum and average of all camera / projector errors
- DSOF-17095 - OmniCal: report now immediately log to console, not just at end
- DSOF-17089 - update FakeIt to latest version 2.0.8+
- DSOF-17066 - OmniCal: save Report as txt file, in addition to JSON, to help with analysis
