

## r27.7.1 Changelog

```
+-----+  
| r27.7 Release - 189739 |  
+-----+
```

Release day June 20th 2024

### Fixes

- DSOF-21378 - Render nodes marked as failed are now notified to prevent them contributing to network traffic
- DSOF-25240 - Discovery ndirelay instance now has a lower CPU usage
- DSOF-26705 - Fixed an issue where RenderStream Layers connected to sockpuppet may not have initialised personality types leading to Exceptions
- DSOF-26899 - Fixed an issue where the first command to an OSC Indirection did not change the resource
- DSOF-27329 - Fixed an issue where a capture group config can't be saved on bluefish card
